

Never seen a fax go red?

**OLIVETTI OFX 9100
MULTIFUNCTION LASER FAX**

olivetti

A FAX MACHINE THAT GOES RED? IMPOSSIBLE BUT TRUE. BECAUSE THE OLIVETTI OFX 9100 IS THE FIRST MULTIFUNCTION FAX THAT INFORMS YOU OF ITS STATUS BY CHANGING COLOUR ON THE DISPLAY: GREEN FOR STAND-BY, ORANGE IF OPERATING AND RED FOR WARNING MESSAGES. VERY USEFUL, ESPECIALLY FOR SMALL OFFICES WHERE THERE IS NO ONE SPECIFICALLY IN CHARGE OF RECEIVING AND DISTRIBUTING FAXES. AND THEN THE OFX 9100, WITH ITS ATTRACTIVE DESIGN, IS NOT ONLY A FAX MACHINE, BUT ALSO A PRINTER, COPIER, SCANNER, PC FAX AND ALSO HAS INNOVATIVE DOCUMENT MANAGEMENT SOFTWARE.

OFX 9100

easy to read display, which changes colour depending on the status of operations and a navigation key to simplify the machine's functions

compact and elegant design

DESIGN, COMPACTNESS AND SPEED

The Olivetti OFX 9100 is a multifunction machine that features a compact and elegant design that makes it ideal to be included in all work places without taking up too much space.

As a fax machine it offers high speed transmission: with its 33.6 Kbps modem it takes less than 3 seconds to transmit an A4 document.

KEEP UP TO DATE WITH THE CHANGING COLOUR DISPLAY

One of the most innovative features of the Olivetti OFX 9100 is its backlit display that changes colour. Just have a look to see what the machine's status is: green for stand-by; orange when operating, red for warning messages, such as paper jam, out of paper or toner.

GREAT MEMORY AND SO MANY RESOURCES

The Olivetti OFX 9100 provides you with an ample standard memory equivalent to around 120 pages and is equipped with the handy "dual access" function, which allows more than one operation to be carried out at the same time.

In addition, as a copier, it guarantees a speed of 5 cpm and a resolution of 400x400 dpi; other useful resources

are the multicopy function and the 70% to 100% zoom.

MULTIFUNCTION

Connected to your PC the OFX 9100 offers all the facilities of the Olivetti multifunction.

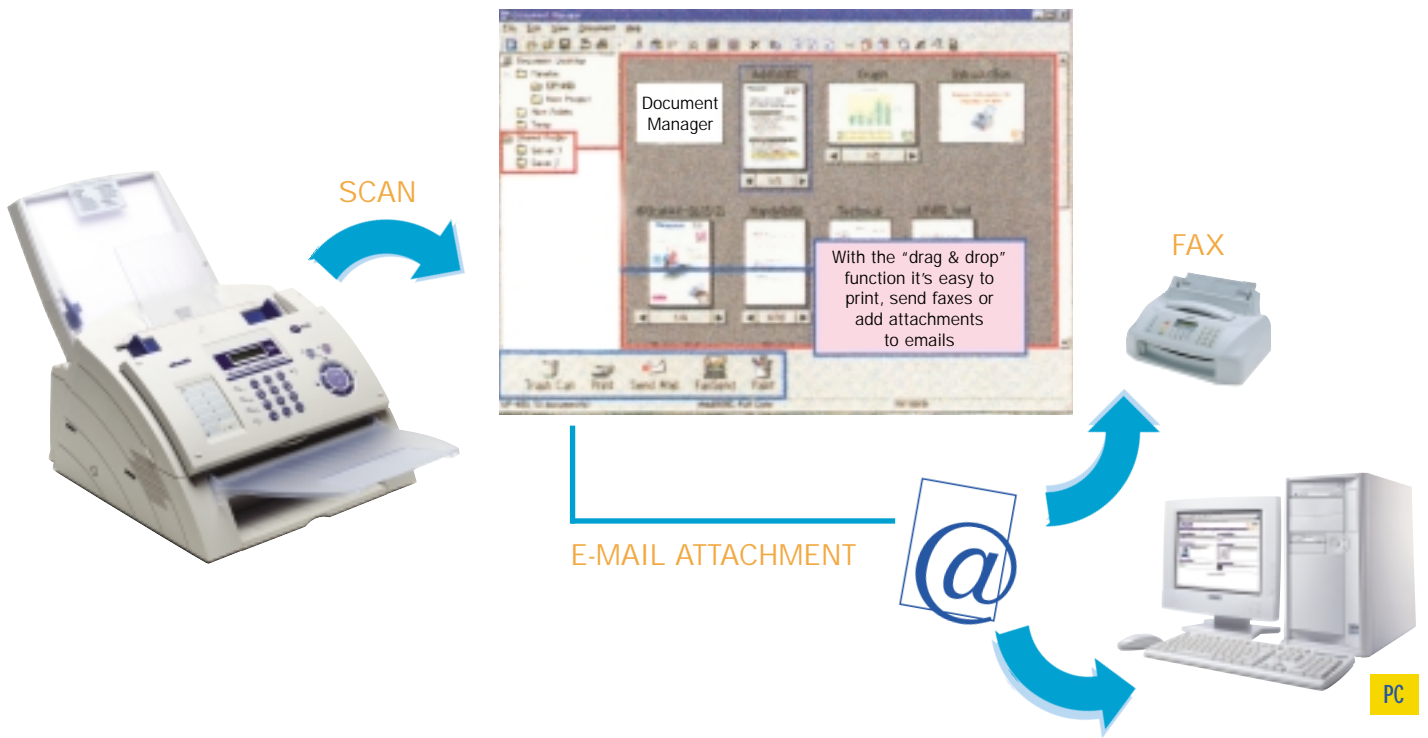

It is a handy printer, with a speed of 5 ppm at a resolution of 600x600 dpi and a scanner, to transfer images and documents on to the computer, thus ensuring the possibility of easily performing the "scan to email" function.

DOCUMENT MANAGEMENT: INNOVATION IN FILING

With the Olivetti OFX 9100, thanks to the innovative Document Management Software, you can say goodbye to the problems of paper and documents disappearing.

In fact with the OFX 9100 and with the Document Management Software you can set up a real electronic archive on your PC, where you can put all the fax documents received or sent, or those acquired by scanning.
